

papaya sarl

faciliter le développement

Presentation by Dec. 2021

Brief:

PAPAYA sarl has been founded by a Turkish engineer and a Senegalese businessman in Dakar / SENEGAL by 2015. They operate over West African countries since then.

PAPAYA mainly deals with business and project development.

PAPAYA realizes the dreams into investments and transforms to keys.

Experience

Our individuals having impressive experiences extending over the world. One is based mainly on construction field, started from Turkey and has served in the Middle East, China, North and West Africa. Whereas partnering side has served mostly in Senegal and West Africa as well as in US.

Today

The two senior founders operate PAPAYA actively together with a young, dynamic and a professional team. Additionally, we do outsource some studies and works to those our long term sister companies in Turkey. This gives us a sustainable strength in the local and in the regional markets.

Vision

We do believe that West Africa and especially Senegal will accelerate growth due to her geostrategical location and governmental structure. Recent investments in social and structural fields reflect that Senegal and neighboring countries will take more place in worldwide aspects. Regarding with pandemic reality, the region shows more strength and gets much attraction.

We have plans to establish our position in accordance with all these phenomenon.

Mission

As our slogan is “**faciliter le développement**”, we always invest in and facilitate for the development. Due to our worldwide experience, PAPAYA will take highest role to contribute in the developments of Senegal and of West Africa.

Business Fields
